### **Gwinnett Place CID completes first landscaping project**

*Imagescapes Inc. installs new landscape features near Venture Mall*

(Duluth)—A much-needed community beautification project is now complete with totally new landscape visible along Venture Drive at Pleasant Hill Road.

Prior to the efforts of Gwinnett Place Community Improvement District (CID) and Imagescapes Inc., a large landscape island on Venture Drive consisted mostly of bare dirt, debris and haphazard ground cover.

The CID funded a “plant and shrub makeover” completed by Imagescapes. The traffic island is now home to a variety of attractive and well-maintained plants, including rose bushes.

“Our upcoming landscape projects will include the corner of Satellite Boulevard and Commerce Avenue as well as the southbound ramp areas of I-85,” said Gwinnett Place CID Executive Director Dave Rosselle. “Landscaping for the Pleasant Hill ramps will be planned when the upcoming I-85/316 interchange project is complete.”

Imagescapes Inc., a professional landscape maintenance company, mows along community roadways and the I-85 ramp areas in the district. Ongoing weekly maintenance includes picking up an average of 10 bags of trash per week and illegal signs.

Information on CID projects is available online at [www.GwinnettPlaceCID.com](http://www.GwinnettPlaceCID.com).
